Max Power..... 3100 W

Thanks to the turbo economy function, the machine can be used to cook precooked pasta, dried pasta, potato gnocchi, ravioli, and tortellini;

It has 2 or 4 baskets that make it possible to cook 2 or 4 pasta specialties at the same time;

Each basket can hold up to 8 oz of pasta;

It is equipped with patented vapor aspiration system;

It does not emit odors;

It is completely detachable for easier cleaning;

It is easy to use thanks to its immediate learning control panel;

It is entirely made of stainless steel;

Electronic temperature and time control, interactive chart, counter for the number of dishes cooked in order to monitor productivity.

A perfect Isibisi pasta dish can be prepared and served in just 60 seconds without requiring SPECIALIZED LABOR and in total automation with this new Pasta machine. The new Voglia di Pasta machine, is ideal for COOKING gluten free products and ensures absolute safety for allergic and intolerant people.

The machine is available in two versions: the smaller version has two bins, is 24 inches wide and prepares up to 120 pasta dishes in 1 hour; the larger version has four baskets, is recommended for larger scenarios, and can prepare up to 240 pasta dishes in 1 hour.

Voglia di Pasta is totally automatic and easy to use, and makes for considerable savings in time and effort: just load the drum and press a button. It is equipped with an automatic water bath which makes serving up to four different sauces possible, and a patented vapor aspiration system that allows its use without aspiration hood.
